

Encoder flight plug

M1&X1.5 Screw sleeve

M2&X1.5 Screw sleeve

Lifting rings

Wiring box

Cooling fan

Floor mounting plate

	
	
KTY1	KTY2

- 1.The motor supports both horizontal and vertical mounting methods, with removable foot mounting plates for horizontal mounting;
- 2.The cooling fan of this motor has a 380V input voltage, and the fan power is 30W;
- 3.The recommended core size for this motor power cable is 2.5 mm² and the recommended power cable terminal is TB-2506.;
- 4.The above wiring definition markings are for illustrative purposes only, see the internal wire markings of the motor wiring box for details;
- 5.The motor stator coil is embedded with KTY84 temperature measuring resistor, please pay attention to the motor temperature when using the motor to prevent damage to the motor due to high temperature.;
